PROFILE

React JS developer with full stack experience, currently teaching and mentoring software development students at Eleven Fifty Academy. Eager to apply the knowledge and experience I have gained so far and take the next step in my career as a software developer. I bring extensive experience in a team-based environment from my previous career, as well as a full understanding of Agile and Scrum methodologies.

DRIVEN CODER / CAREER-CHANGER / PROBLEM-SOLVER

My background in Six Sigma process improvement has also equipped me with problem-solving skills and a love for finding the better, more efficient solution for whatever is in front me. I want to bring these skills and this passion to my team and make real contributions toward a real, common, tangible goal in this great new career in code.

WORK EXPERIENCE

LEARNING ASSSISTANT

Eleven Fifty Academy | November 2020 - Present

- Assist in the education and growth of full-stack web development students, utilizing mainly JavaScript with React, API calls, DOM manipulation, CSS, useState, and useEffect
- Participate in classroom setting as well as one-on-one review/tutoring sessions
- Debug and analyze student projects for logic and syntax errors
- Provide suggestions and feedback, and frequently engage in small group teaching sessions
- Write and develop extra learning materials for students with coding challenge repositories

SEASONAL WORK (COVID-19 RELATED WORK SHORTAGE)

Amazon, Other | April 2020 - November 2020

- Perform warehouse functions and general labor requirements as an order picker and dock associate
- Landscaping, uber, lyft, as well as other opportunities as needed

STUDENT (FULL TIME)

Eleven Fifty Academy | December 2019 - March 2020

- Full time, immersive coding boot camp designed to teach the core fundamentals of software development using mainly JavaScript, React, HTML, CSS, and others listed in Professional Skills

OPERATIONS SUPERVISOR

Neovia Logistics | July 2019 - November 2019

- Wrote and implemented standard work documentation
- Improved dock to stock metric from 4-5 days to under 36 hours in first 2 months of 3PL takeover, while maintaining focus on safety initiatives
- Supervised a department of 20 associates and monitored productivity and efficiency
- Member of kaizen effort to redesign receiving dock process and streamline intake process

GENERAL MANAGER

Jet's Pizza | August 2015 - January 2018

- Responsible for all hiring, training, scheduling, and business operations for a 25-employee pizza pick-up and delivery operation
- Pushed sales up 5% each month for first 3 months
- Reduced inventory costs by 7% within first 2 months
- Designed and implemented full-scale inventory system in excel to account for food costs

OPERATIONS SUPERVISOR

FullBeauty Brands | August 2013 - August 2015

- Supervised a returns department of 120 associates
- Increased and maintained SOP and Safety audit pass rate from 90% to 95% over tenure
- Prepared and participated in annual inventory period, ensuring 100% compliance and accountability for returns department
- Redesignated portion of returns inspection process to eliminate waste
 - Est. savings of \$40,000/yr
 - No loss to quality or production rate
